### Mapping French funds on the Maghreb: first results and challenges of the Digi#Magh survey

This round table is devoted to the first mission of the Digital Maghreb project: an inventory of the documentary resources on the Maghreb held in French libraries. The first part of the round table will present the results of the survey carried out among the conservation institutions. Secondly, a discussion will be opened with researchers on the implications of this mapping for the field of Maghreb studies in France.
